Office of Petitions  
Asst. Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

In response to the denial of the request for issuance of a Certificate of Correction, applicant Petitions the Commissioner of Patents to issue a Certificate of Correction in view of the following:

On March 14, 2006, Applicant submitted the attached Issue Fee Transmittal via facsimile. However, applicant notes that what was faxed to the U.S. Patent Office was not a paper copy. Rather, what was faxed was a scanned electronic copy, in PDF format, that was edited using Adobe Acrobat 7.0 Standard. That is, the names of the patent attorneys, the name of the Assignee, and the residence of the assignee were input on the issue fee transmittal PDF using editing/commenting tools within Acrobat. The signature was input using a stamp tool within Acrobat.

Subsequent to submitting the attached Issue Fee Transmittal, Applicant's discovered that such editing tools in Acrobat, although present in the original PDF document, were NOT printed in the copy faxed to the US Patent Office. Rather, a check box within the print engine of Acrobat, which allowed printing of the added characters, should have been

checked. Thus, when the attached Issue Fee Transmittal was printed to our FAX program, the edited characters were not part of the facsimile. Since the US Patent Office replied that they had received our fax, we were not aware of this software "issue" until the patent issued, with blank Assignee information.

We have contacted Adobe to better understand this software "issue" and have chosen a different editing tool (i.e., the Typewriter tool) within Acrobat which correctly prints to our fax engine.

Applicant hereby authorizes the US Patent Office to charge the fee for this petition, \$400, to Deposit Account No. 50-3914. Applicant further authorizes the US Patent Office to charge any additional fees which are necessary for this petition to said Deposit Account.

Applicant earnestly requests that the Commissioner issue a Certificate of Correction to correctly identify the assignee and residence of the assignee per the attached request for Certificate of Correction. Applicant notes that should the Commissioner deny the request to issue the Certificate of Correction, 3<sup>rd</sup> parties will not be made aware of the proper ownership of this patent, as recorded at Reel/Frame 013653/0650.

I hereby certify under 37 CFR 1.8 that this correspondence is being facsimile transmitted to the United States Patent and Trademark Office on the date of signature shown below.
